

1. Which key on a standard computer keyboard deletes the character directly to the right of the cursor?

- | | |
|---------------|------------|
| (A) Backspace | (B) Delete |
| (C) End | (D) Shift |

2. Which mouse action is typically used to open a file or program on a desktop operating system?

- | | |
|------------------|------------------------|
| (A) Single click | (B) Right click |
| (C) Double click | (D) Scroll wheel click |

3. What type of input device converts physical sound waves from human speech into digital signals?

- | | |
|-------------|-----------------------|
| (A) Speaker | (B) Microphone |
| (C) Plotter | (D) Sound synthesizer |

4. Which key is used to move the text insertion cursor immediately to the beginning of the current line?

- | | |
|-------------|----------|
| (A) Page Up | (B) Home |
| (C) Insert | (D) Tab |

5. What is the full form of the abbreviation OMR used in optical scanning?

- | | |
|------------------------------|--------------------------|
| (A) Optical Mark Recognition | (B) Optical Media Reader |
| (C) Online Memory Register | (D) Output Mark Restorer |

6. Which mouse button is typically used to open a context menu containing options like Cut, Copy, and Properties?

- | | |
|------------------|------------------|
| (A) Left button | (B) Right button |
| (C) Scroll wheel | (D) Thumb button |

7. What is the primary function of a Barcode Scanner in retail stores?

- | | |
|-----------------------------------|--|
| (A) Printing receipt totals | (B) Reading encoded product code lines |
| (C) Scanning customer bank checks | (D) Weighing physical items |

8. Which key on the keyboard moves the cursor down by one screen height at a time?

- | | |
|----------------|-----------|
| (A) Page Down | (B) End |
| (C) Down Arrow | (D) Enter |

9. A pen-like pointing device used to draw on touchscreens or graphics tablets is called a:

- | | |
|--------------|---------------|
| (A) Stylus | (B) Trackball |
| (C) Joystick | (D) Marker |

10. Which technology allows a computer to read characters printed in special magnetic ink on bank checks?

- (A) MICR
- (B) OCR
- (C) OMR
- (D) RFID

11. The Spacebar key on a standard keyboard is primarily used to:

- (A) Insert a blank space between characters
- (B) Move to the next line of text
- (C) Capitalize selected letters
- (D) Delete the selected object

12. What input component allows users to scroll through web pages and long documents on a standard mouse?

- (A) Laser sensor
- (B) Scroll wheel
- (C) Trackball
- (D) DPI switch

13. Which key switches between inserting text and overwriting existing text in document editors?

- (A) Insert
- (B) Shift
- (C) Alt
- (D) Ctrl

14. Which scanner type is small, portable, and dragged manually across a page to capture text or images?

- (A) Flatbed Scanner
- (B) Handheld Scanner
- (C) Drum Scanner
- (D) Sheetfed Scanner

15. What type of device is an Interactive Whiteboard used in modern digital classrooms?

- (A) Input device only
- (B) Output device only
- (C) Both input and output device
- (D) Storage device only

16. What does MICR stand for in computing and document processing?

- (A) Magnetic Ink Character Recognition
- (B) Micro Image Code Reader
- (C) Mechanical Input Card Reader
- (D) Multiple Interface Control Register

17. Which section on a standard desktop keyboard is dedicated exclusively to rapid numeric entry?

- (A) Function row
- (B) Numeric Keypad
- (C) Navigation cluster
- (D) Control row

18. A biometric Fingerprint Scanner converts physical ridge patterns into digital data for the purpose of:

- (A) Identity verification
- (B) Graphic design
- (C) Data compression
- (D) Document translation

19. Which input device uses an optical sensor to track eye movements for user interaction?

- (A) Eye Tracker (B) Light Pen
(C) Digitizer (D) Web Camera

20. Pressing the Print Screen (PrtScn) key on a Windows keyboard typically captures:

- (A) A print job directly to the physical printer (B) An image of the current screen to the clipboard
(C) A photo using the computer webcam (D) A video recording of screen actions

21. Which technology enables a scanner software to turn scanned images of text into editable text files?

- (A) OCR (B) OMR
(C) MICR (D) BIOS

22. A 2D square matrix code consisting of black squares on a white background read by smartphone cameras is a:

- (A) Linear Barcode (B) QR Code
(C) OMR Sheet (D) Magnetic Strip

23. Which input device is specifically designed to control movement in 3D spaces or CAD applications using a spherical stick?

- (A) Joystick / Spaceball (B) Optical Mouse
(C) Flatbed Scanner (D) Numeric Pad

24. Which shortcut modifier key is combined with C to copy selected items on Windows operating systems?

- (A) Alt (B) Ctrl
(C) Shift (D) Tab

25. Devices that collect input data directly from physical environments (e.g., temperature or light) into computers are:

- (A) Actuators (B) Sensors
(C) Plotters (D) Monitors

ANSWER KEY

Q.No	Ans	Q.No	Ans	Q.No	Ans	Q.No	Ans	Q.No	Ans
1	(B)	6	(B)	11	(A)	16	(A)	21	(A)
2	(C)	7	(B)	12	(B)	17	(B)	22	(B)
3	(B)	8	(A)	13	(A)	18	(A)	23	(A)
4	(B)	9	(A)	14	(B)	19	(A)	24	(B)
5	(A)	10	(A)	15	(C)	20	(B)	25	(B)
