

1. Which hardware device displays text, graphics, and video generated by a computer onto a visual screen?

- | | |
|--------------|----------------|
| (A) Monitor | (B) Scanner |
| (C) Keyboard | (D) Microphone |

2. A output printed on paper by a computer printer is commonly referred to as a:

- | | |
|------------------|------------------|
| (A) Soft copy | (B) Hard copy |
| (C) Digital copy | (D) Virtual copy |

3. What type of output device converts computer audio signals into sound waves audible to multiple listeners in a room?

- | | |
|--------------|----------------|
| (A) Speakers | (B) Microphone |
| (C) Plotter | (D) Web Camera |

4. Which type of printer uses liquid ink sprayed through tiny nozzles to print images and text on paper?

- | | |
|------------------------|---------------------|
| (A) Laser printer | (B) Inkjet printer |
| (C) Dot-matrix printer | (D) Thermal printer |

5. What is the individual picture element (tiny dot) on a computer display monitor screen called?

- | | |
|-----------|----------|
| (A) Pixel | (B) Bit |
| (C) Byte | (D) Font |

6. Which output device projects computer video images onto a large flat screen or wall for presentations?

- | | |
|--------------------------|-----------------------|
| (A) Multimedia Projector | (B) Graphic Digitizer |
| (C) Flatbed Scanner | (D) Plotter |

7. Printers that produce characters by physically striking an inked ribbon against paper are classified as:

- | | |
|-------------------------|---------------------|
| (A) Non-impact printers | (B) Impact printers |
| (C) Thermal printers | (D) Laser printers |

8. Which specialized printer uses pens to draw continuous high-precision vector lines on large architectural blueprints?

- | | |
|------------------------|---------------------|
| (A) Plotter | (B) Inkjet Printer |
| (C) Dot-Matrix Printer | (D) Thermal Printer |

9. What type of printer uses dry powder cartridge called toner to print high-speed documents?

- | | |
|-------------------------|-------------------|
| (A) Dot-matrix printer | (B) Laser printer |
| (C) Daisy wheel printer | (D) Line printer |

10. Personal audio listening devices worn directly over or inside a user's ears are known as:

- (A) Microphones
- (B) Headphones / Earphones
- (C) Amplifiers
- (D) Sound cards

11. The measure of print clarity and resolution on paper is expressed in which standard unit?

- (A) DPI (Dots Per Inch)
- (B) PPM (Pages Per Minute)
- (C) Hertz (Hz)
- (D) Pixels Per Second

12. What does the abbreviation LCD stand for in display monitor technology?

- (A) Liquid Crystal Display
- (B) Light Computer Diode
- (C) Laser Color Display
- (D) Linear Circuit Device

13. An image displayed on a computer screen that exists only in digital form is known as a:

- (A) Hard copy
- (B) Soft copy
- (C) Printout
- (D) Carbon copy

14. Which printer type uses heat-sensitive paper to print POS shopping receipts without ink or toner?

- (A) Thermal Printer
- (B) Laser Printer
- (C) Dot-Matrix Printer
- (D) Inkjet Printer

15. What unit is commonly used to measure the operating speed of modern document printers?

- (A) DPI (Dots Per Inch)
- (B) PPM (Pages Per Minute)
- (C) GHz (Gigahertz)
- (D) RPM (Revolutions Per Minute)

16. Which old display monitor technology used heavy glass vacuum tubes to project images?

- (A) CRT (Cathode Ray Tube)
- (B) LED (Light Emitting Diode)
- (C) OLED (Organic Light Emitting Diode)
- (D) LCD (Liquid Crystal Display)

17. Modern flat-panel displays that use energy-efficient light emitting diodes for backlighting are called:

- (A) LED Monitors
- (B) CRT Monitors
- (C) Dot-Matrix Displays
- (D) Plasma Tubes

18. Which legacy impact printer creates characters on multi-part carbon paper forms using tiny pins striking an ink ribbon?

- (A) Laser printer
- (B) Dot-Matrix printer
- (C) Thermal sublimation printer
- (D) Inkjet printer

19. What property of a display screen determines how many total pixels it can display horizontally and vertically (e.g., 1920x1080)?

- (A) Screen Resolution (B) Aspect Ratio
(C) Refresh Rate (D) Color Bit Rate

20. Which audio component inside a computer converts digital sound files into analog signals for speakers?

- (A) Sound Card (B) Graphics Card
(C) Network Interface Card (D) Power Supply Unit

21. A combination headset unit that includes both headphones and a built-in microphone functions as:

- (A) An input device only (B) An output device only
(C) Both an input and output device (D) A secondary storage device

22. What primary color model is used by color inkjet and laser printers for mixing ink on white paper?

- (A) RGB (Red, Green, Blue) (B) CMYK (Cyan, Magenta, Yellow, Key/Black)
(C) HSV (Hue, Saturation, Value) (D) Monochromatic Gray

23. What parameter describes the proportional relationship between a monitor screen's width and height (e.g., 16:9)?

- (A) Contrast ratio (B) Aspect ratio
(C) View angle (D) Response time

24. Which type of printer is capable of building three-dimensional physical objects layer-by-layer from digital models?

- (A) 3D Printer (B) Line Printer
(C) Photo Printer (D) Laser Printer

25. Which display technology uses self-illuminating organic compounds that do not require any backlight panel?

- (A) OLED (B) TFT-LCD
(C) CRT (D) TN Panel

ANSWER KEY

Q.No	Ans	Q.No	Ans	Q.No	Ans	Q.No	Ans	Q.No	Ans
1	(A)	6	(A)	11	(A)	16	(A)	21	(C)
2	(B)	7	(B)	12	(A)	17	(A)	22	(B)
3	(A)	8	(A)	13	(B)	18	(B)	23	(B)
4	(B)	9	(B)	14	(A)	19	(A)	24	(A)
5	(A)	10	(B)	15	(B)	20	(A)	25	(A)
