

Practice Sheet

- 01. An Operating System primarily acts as:**
- (a) Hardware component
 - (b) Interface between user & hardware
 - (c) Application software
 - (d) Programming language
- 02. Which is NOT a goal of an OS?**
- (a) Efficiency
 - (b) Convenience
 - (c) Profit generation
 - (d) Ability to evolve
- 03. CPU scheduling is part of:**
- (a) File management
 - (b) Memory management
 - (c) Process management
 - (d) Device management
- 04. Batch OS is best suited for:**
- (a) Interactive tasks
 - (b) Real-time control
 - (c) Large repetitive jobs
 - (d) Gaming
- 05. Which OS allows multiple programs in memory?**
- (a) Batch
 - (b) Multiprogramming
 - (c) Real-Time
 - (d) Single-task
- 06. Time-sharing OS emphasizes:**
- (a) Throughput (b) Response time
 - (c) Security (d) Compilation
- 07. RTOS is mainly used in:**
- (a) Office software
 - (b) Embedded systems
 - (c) Browsers
 - (d) Databases
- 08. System calls provide:**
- (a) Direct hardware control
 - (b) Interface to OS services
 - (c) User login
 - (d) BIOS access
- 09. fork() is related to:**
- (a) File deletion
 - (b) Process creation
 - (c) Memory allocation
 - (d) Disk formatting
- 10. Kernel mode has:**
- (a) Restricted access (b) No privileges
 - (c) Full privileges (d) Only file access
- 11. User mode prevents:**
- (a) Multitasking
 - (b) Unauthorized hardware access
 - (c) Memory allocation
 - (d) File saving
- 12. File system management handles:**
- (a) CPU switching
 - (b) RAM timing
 - (c) File creation/deletion
 - (d) Interrupts
- 13. Which improves CPU utilization?**
- (a) Batch OS (b) Single-user OS
 - (c) Multiprogramming OS (d) RTOS
- 14. Context switching occurs in:**
- (a) File handling
 - (b) Process scheduling
 - (c) Disk formatting
 - (d) Compilation
- 15. OS security includes:**
- (a) Encryption (b) Access control
 - (c) Passwords (d) All

16. Which is an OS service?

- (a) Web browsing
- (b) Program execution
- (c) Coding
- (d) Debugging

17. Multiprogramming reduces:

- (a) CPU speed
- (b) Idle CPU time
- (c) RAM size
- (d) Disk usage

18. Time-sharing uses:

- (a) Long bursts
- (b) CPU quantum
- (c) Single task
- (d) Batch queues

19. Real-time OS requires:

- (a) High graphics
- (b) Deterministic response
- (c) User interaction
- (d) Compilation

20. System call open() relates to:

- (a) Memory
- (b) File management
- (c) CPU
- (d) Device boot

21. Kernel is:

- (a) Shell program
- (b) OS core
- (c) Driver only
- (d) Compiler

22. Which runs in user mode?

- (a) Device drivers
- (b) Kernel
- (c) Application programs
- (d) Interrupt handler

23. Interrupt handling belongs to:

- (a) Device management
- (b) Kernel
- (c) User program
- (d) Compiler

24. Which OS type is interactive?

- (a) Batch
- (b) Multiprogramming
- (c) Time-sharing
- (d) RTOS only

25. Throughput is maximized in:

- (a) Batch OS
- (b) RTOS
- (c) Time-sharing
- (d) Gaming OS

26. Protection mechanism prevents:

- (a) Errors
- (b) Resource misuse
- (c) Scheduling
- (d) Paging

27. Which is NOT OS function?

- (a) Memory management
- (b) Process management
- (c) File compression
- (d) Device management

28. Virtual memory extends:

- (a) Disk speed
- (b) RAM capacity logically
- (c) CPU cores
- (d) Cache

29. Mode switch occurs via:

- (a) Compiler
- (b) System call/interrupt
- (c) User typing
- (d) Disk read

30. exit() is:

- (a) File call
- (b) Process control call
- (c) Device call
- (d) Memory call

31. Which best describes an OS?

- (a) Resource allocator
- (b) Control program
- (c) Extended machine
- (d) All of these

32. Efficiency in OS refers to:

- (a) User comfort
- (b) Hardware utilization
- (c) GUI design
- (d) Boot speed

33. **Time-sharing OS mainly reduces:**
(a) Throughput (b) Turnaround time
(c) Response time (d) Memory usage
34. **Multiprogramming requires:**
(a) Large disk
(b) Multiple CPUs
(c) Multiple jobs in memory
(d) Network
35. **Hard real-time systems demand:**
(a) Flexible deadlines
(b) Guaranteed deadlines
(c) High UI
(d) Batch execution
36. **System calls are executed in:**
(a) User mode (b) Kernel mode
(c) BIOS (d) Cache
37. **Which instruction is privileged?**
(a) Add (b) Subtract
(c) Halt CPU (d) Print
38. **OS service “resource allocation” includes:**
(a) CPU only
(b) Memory only
(c) CPU, memory, devices
(d) Files only
39. **Turnaround time critical in:**
(a) Batch OS (b) RTOS
(c) Time-sharing (d) Distributed
40. **Kernel resides in:**
(a) Disk (b) Cache
(c) Main memory when running
(d) Registers
41. **OS is called extended machine because:**
(a) Faster execution
(b) Hides hardware complexity
(c) Uses RAM (d) Compiles code
42. **Which OS type best for airline reservation?**
(a) Batch
(b) Time-sharing
(c) RTOS
(d) Multiprogramming
43. **Strict deadline miss unacceptable in:**
(a) Soft RTOS (b) Hard RTOS
(c) Time-sharing (d) Batch
44. **System call return value indicates:**
(a) CPU load (b) Success/failure
(c) Memory size (d) File size
45. **Kernel mode transition triggered by:**
(a) Loop (b) System call
(c) Arithmetic (d) Variable
46. **Which is OS protection strategy?**
(a) Passwords (b) Access matrix
(c) Dual mode (d) All
47. **Multiprogramming improves utilization by:**
(a) Faster CPU
(b) Overlapping CPU & I/O
(c) Reducing RAM
(d) Disk swap
48. **Turnaround time =**
(a) Submission → Completion
(b) Execution only
(c) Waiting only
(d) CPU only
49. **Response time critical for:**
(a) Payroll
(b) Interactive systems
(c) Batch jobs (d) Compilers
50. **OS service “error detection” monitors:**
(a) Syntax errors (b) Hardware faults
(c) Logic errors (d) Only RAM

COMPUTER

DPP 01 (OS Fundamental) For CUET [Answer Key]

- | | |
|---|---|
| 01. (b)
OS bridges the gap between user and hardware. | 27. (c) |
| 02. (c)
Profit is business goal, not OS goal. | 28. (b) |
| 03. (c)
Scheduling controls process execution. | 29. (b) |
| 04. (c) | 30. (b) |
| 05. (b) | 31. (d)
OS performs all three roles. |
| 06. (b) | 32. (b) |
| 07. (b) | 33. (c) |
| 08. (b) | 34. (c) |
| 09. (b) | 35. (b) |
| 10. (c)
Condensing formatting while keeping explanations detailed) | 36. (b) |
| 11. (b) | 37. (c) |
| 12. (c) | 38. (c) |
| 13. (c) | 39. (a) |
| 14. (b) | 40. (c) |
| 15. (d) | 41. (b) |
| 16. (b) | 42. (b) |
| 17. (b) | 43. (b) |
| 18. (b) | 44. (b) |
| 19. (b) | 45. (b) |
| 20. (b) | 46. (d) |
| 21. (b) | 47. (b) |
| 22. (c) | 48. (a) |
| 23. (b) | 49. (b) |
| 24. (c) | 50. (b) |
| 25. (a) | |
| 26. (b) | |
